

Theophilus C. Torku

APPLIED AI, FULL-STACK & BUSINESS INTELLIGENCE DEVELOPER

Dallas-Fort Worth Metroplex | theotorku1983@gmail.com | linkedin.com/in/theotorku | github.com/theotorku

APPLIED AI

PYTHON / FASTAPI

REACT / TYPESCRIPT

SQL / DATA

POWER BI / FABRIC

PROFESSIONAL SUMMARY

Applied AI, full-stack, and business intelligence developer who builds practical AI products, secure APIs, workflow automation, and governed analytics systems. Public engineering work demonstrates Python, FastAPI, React, TypeScript, LLM agents, authentication, third-party integrations, CI, testing, and cloud-ready deployment. Brings 10+ years of BI experience translating business requirements into reliable data products across healthcare, manufacturing, logistics, retail, education, and technology.

PROFESSIONAL EXPERIENCE

Founder & Applied AI / Software Developer

2023 - Present

ProPlan Solutions | Dallas-Fort Worth, Texas

- Founded an applied AI and software practice focused on turning operational problems into working products for service-oriented businesses.
- Designed and built full-stack platforms for AI visibility auditing, multi-agent workflow orchestration, lead intelligence, campaign generation, and business automation.
- Delivered systems with Python, FastAPI, React, TypeScript, Supabase/Postgres, OpenAI and Anthropic APIs, authentication, billing, background jobs, and third-party integrations.
- Established deterministic scoring, evidence provenance, security controls, migrations, CI pipelines, and automated unit, integration, and browser-level testing.

Data Analyst / Power BI Developer

Jul 2022 - Aug 2024

Code Analytics | Plano, Texas

- Developed, published, and maintained interactive Power BI dashboards for governance and business-performance metrics.
- Built KPI definitions, reusable DAX measures, and semantic data models that supported consistent decisions.
- Integrated multiple source systems, strengthened data-quality controls, and managed report scheduling with Microsoft Fabric.
- Partnered with business teams to translate reporting questions into clear analytical products.

Data Analyst / Data Steward

Sep 2020 - Apr 2022

Inogen | Plano, Texas

- Managed SSIS and SQL ETL pipelines supporting reliable operational and analytical reporting.
- Performed data profiling, validation, cleansing, modeling, and complex SQL extraction.
- Reduced data inconsistencies by 30% through Power BI governance dashboards and stronger stewardship controls.
- Maintained data-quality and compliance standards in a healthcare environment.

Report Developer / BI Analyst

Sep 2009 - Sep 2014

Nordyne Inc. | Poplar Bluff, Missouri

- Built and scheduled Tableau dashboards and SSRS reports supporting manufacturing and operational teams.
- Gathered stakeholder requirements and translated business needs into maintainable BI solutions.

Business Analyst

Aug 2008 - Aug 2009

CSIR Ghana | Accra, Ghana

- Gathered requirements, prepared functional documentation, and developed dashboards for public-sector projects.
- Led stakeholder meetings and user-acceptance activities to align delivery with business needs.

Warehouse Associate

Mar 2024 - Mar 2025

WorldPac | Lewisville, Texas

- Maintained speed and accuracy across picking, packaging, replenishment, returns, and RF-scanner workflows.
- Resolved order questions with sales associates and delivery drivers in a fast-moving logistics environment.

SELECTED ENGINEERING PROJECTS

AIVE - AI Visibility Audit

Python, FastAPI, OpenAI, React, TypeScript, Playwright - Built a tested crawler and explainable scoring platform with structured LLM extraction, evidence provenance, deterministic scoring, and validation across 54 business websites. github.com/theotorku/AIVE

ProPlan Agent OS

Python, FastAPI, Claude, React, Supabase, Celery, Redis - Created a multi-agent system with planning, dispatch, evaluation, tool controls, cost tracking, persistence, migrations, background jobs, and automated tests. github.com/theotorku/proplanOS

Ad Generation Engine

Python, FastAPI, OpenAI, React, Docker, GitHub Actions - Developed a campaign platform with pluggable AI providers, structured generation, review workflows, authentication, billing, CI, pytest, Vitest, and Playwright. github.com/theotorku/Ad_Gen_Eng

Marie AI

React, TypeScript, Node.js, Claude, Supabase, OAuth, Stripe - Built an AI operations assistant with JWT authentication, persistent chat and tasks, Gmail and Calendar integrations, subscriptions, rate limiting, analytics, and tests. github.com/theotorku/Marie-AI

TECHNICAL SKILLS

Applied AI	OpenAI, Anthropic Claude, LangGraph, agent orchestration, structured extraction, tool workflows
Software	Python, FastAPI, React, TypeScript, Node.js, Express, REST APIs, Pydantic
Data & Analytics	SQL, Supabase/Postgres, Power BI, DAX, Fabric, SSIS, SSRS, Tableau, ETL/ELT
Security & Delivery	JWT, bcrypt, OAuth, RLS, rate limiting, Docker, GitHub Actions, migrations
Quality	pytest, Vitest, Playwright, integration and end-to-end testing, validation benchmarks

EDUCATION & CREDENTIALS

B.Sc. Mechanical Engineering - Kwame Nkrumah University of Science and Technology, Ghana | 2008

- Advanced SQL for Query Tuning and Performance Optimization - LinkedIn, May 2023
- Function Calling with the OpenAI API - LinkedIn, January 2024
- Improving Insights with OpenAI's Advanced Data Analysis - LinkedIn, January 2024

TARGET ROLES	Applied AI Developer AI Solutions Engineer Python Full-Stack Developer Analytics Engineer Senior BI Developer
