POWER BI

SQL / SSIS

MICROSOFT FABRIC

DATA GOVERNANCE

DAX / MODELING

PROFESSIONAL SUMMARY

Senior business intelligence professional with 10+ years of experience designing dashboards, ETL pipelines, data models, and governed reporting solutions. Delivers end-to-end analytics with Power BI, SQL, DAX, SSIS, SSRS, Tableau, and Microsoft Fabric. Known for translating ambiguous business questions into reliable KPIs and decision-ready insights across healthcare, manufacturing, education, logistics, retail, and technology.

PROFESSIONAL EXPERIENCE

Data Analyst / Power BI Developer

Jul 2022 - Aug 2024

Code Analytics | Plano, Texas

- Developed, published, and maintained interactive Power BI dashboards for governance and business-performance metrics.
- Built KPI definitions, reusable DAX measures, and semantic data models that supported consistent decisions.
- Integrated multiple source systems, strengthened data-quality controls, and managed report scheduling with Microsoft Fabric.
- Partnered with business teams to translate reporting questions into clear analytical products.

Data Analyst / Data Steward

Sep 2020 - Apr 2022

Inogen | Plano, Texas

- Managed SSIS and SQL ETL pipelines supporting reliable operational and analytical reporting.
- Performed data profiling, validation, cleansing, modeling, and complex SQL extraction.
- Reduced data inconsistencies by 30% through Power BI governance dashboards and stronger stewardship controls.
- Maintained data-quality and compliance standards in a healthcare environment.

Report Developer / BI Analyst

Sep 2009 - Sep 2014

Nordyne Inc. | Poplar Bluff, Missouri

- Built and scheduled Tableau dashboards and SSRS reports supporting manufacturing and operational teams.
- Gathered stakeholder requirements and translated business needs into maintainable BI solutions.

Business Analyst

Aug 2008 - Aug 2009

CSIR Ghana | Accra, Ghana

- Gathered requirements, prepared functional documentation, and developed dashboards for public-sector projects.
- Led stakeholder meetings and user-acceptance activities to align delivery with business needs.

Warehouse Associate

Mar 2024 - Mar 2025

WorldPac | Lewisville, Texas

- Maintained speed and accuracy across picking, packaging, replenishment, returns, and RF-scanner workflows.
- Resolved order questions with sales associates and delivery drivers in a fast-moving logistics environment.

SELECTED PROJECTS

AI-Powered Lead Generator

Python, FastAPI, Supabase, Docker - Built an intelligent prospecting platform combining web research, lead qualification, and automated outreach workflows.

Financial Metrics Dashboard

Power BI, DAX, SQL - Designed a decision-focused report covering sales, profitability, product performance, and regional trends.

Mobile Mechanic Service Platform

React, Node.js, Stripe, Kafka - Developed a service platform with real-time GPS tracking, secure payments, and predictive analytics.

TECHNICAL SKILLS

Business Intelligence	Power BI, Tableau, SSRS, dashboard design, KPI development, data storytelling
Data & Modeling	SQL, T-SQL, DAX, Power Query, SSIS, ETL/ELT, dimensional modeling, semantic models
Platforms	Microsoft Fabric, SQL Server, Oracle, Snowflake, AWS Redshift
Engineering	Python, FastAPI, Supabase, Docker, React, Node.js, Git, REST APIs
Practice	Data governance, stewardship, validation, requirements gathering, UAT, Agile and Waterfall

EDUCATION & CREDENTIALS

B.Sc. Mechanical Engineering - Kwame Nkrumah University of Science and Technology, Ghana | 2008

- Advanced SQL for Query Tuning and Performance Optimization - LinkedIn, May 2023
- Function Calling with the OpenAI API - LinkedIn, January 2024
- Improving Insights with OpenAI's Advanced Data Analysis - LinkedIn, January 2024

TARGET ROLES

Senior BI Developer | Power BI Developer | Analytics Engineer | Data Governance Analyst
